

### *For Immediate Release*

RENTON, WA. March 15, 2008 – Erado the leading on-demand message security archiving, compliance, and hosting services, released its latest upgrade to its on-demand software as a service message archive, security, and management platform.

The new interface “Erado’s Management Control Center Version 7.0” is a “from the ground up” upgrade of all of Erado’s management tools. Version 7.0 for short is a true ‘Web 2.0’ application with all of the features you would expect of a 21st web application.

A few of the major upgrades are:

- enhanced end-user archive access and management
- easier archive search with unlimited search parameters
- upgraded security and access features
- simplified end-user management
- distributed message supervisory capabilities for FINRA compliance
- custom supervisory reports
- enhanced spam virus and content filtering
- upgraded outbound filtering features
- easier quarantine search with unlimited search parameters

Craig Brauff, Erado’s CEO was quoted as “Version 7.0 is our most significant upgrade in the history of the company. Not only have we rolled out over 200 new and enhanced features, our new backend service platform will allow us to quickly and seamlessly roll out our new products and services that are scheduled for release later this year.”
