

For Immediate Release

RENTON, WA. JULY 15, 2006 – Erado the leading on-demand message security archiving, compliance, and hosting services for financial services companies, announced a new web based instant message client.

Erado rolled out its new web based instant message client that compliments its existing desktop client. The new web based client provides a universal interface for archiving and compliance customers to conveniently and securely hold instant message conversations anywhere anytime and be assured they are archived for regulatory purposes.

Erado's CEO Craig Brauff commented that "this new web based addition significantly enhances our competitive ability in the hosted im market. We are one of the first providers to offer an anywhere anytime solution that address both end-user and regulatory needs."
